

## **Centre Types:**

We recognise that there is no 'one size fits all' approach to accrediting and quality assuring learning. To ensure we have the most appropriate approach for your organisation we have three types of Centre status at Yuvak Vikas Samitee. To decide which is most appropriate to your organisation's needs you should first discuss your situation and requirements with a member of the Centre support team as they will be able to explain in detail how each of these options work and also relate it to your organisation's activities and aspirations.

Each different type of YVS Centre is explained briefly below and also indicated are the sections of the application form that require completing for each type of Centre status.
